

Welcome to the seventeenth edition of the Turolla quarterly Newsletter. As we approach the year-end a short retrospect of recent events disclose a year of high activity. The opening of a new plant as well as new technology launches, showned at the recent Agritechnica exhibition, demonstrates our dedication to bring Turolla forward. In our efforts in raising the bar and positioning Turolla as a strong and reliable partner, we also clearly recognize the challenges faced in this transition period of fast forward moving. We therefore anticipate a space for consolidation to ensure the basics are regained and utilized through the achievements already obtained.

In this edition you will find news about our homepage, a successful quality audit as well as latest news regarding new product releases and status concerning our low noise pump, Turolla *shhark*®. And, as always, your valuable feedback is very much appreciated and welcomed – because your opinion matters!

So, for the next five “reading-minutes” – enjoy!  
 Best regards, Ulrik Krag - Manager Partner Companies Europe

**News from Turolla Marketing**

Frequently consulting our homepage for latest news and updates is strongly recommended.

As an example, the download site displaying catalogues, brochures and data sheets is a good place to retrieve valuable information.

As an appetizer - in the beginning of the new year additional documentation related to our *shhark*® low noise pump is ready to be retrieved.

And more will come, so make sure to be up-to-date by visiting our homepage.

**News from Turolla Quality**

Our Quality System Set-Up has recently successfully passed the DNV Business Assurance Audit.

The focus of the external audit was our compliance to the new ISO 9001:2015 standard.

The assessment revealed:

- Zero “0” nonconformities
- Zero “0” observations

This result is very well received and highlights the outcome of our persistent efforts in ensuring a strong quality founded platform in our new factory.

**News from Turolla Sales**

In the recent published and forwarded 2016 European LP Book you may already have noticed all the new released products within the Aluminum and the Cast Iron product range.

Almost 1.500 new releases are now added and included in the 2016 standard program, supporting our willingness-to-offer approach.

**News from Turolla Sales - continued**

At the recent Agritechnica Exhibition in Hannover, among many new technologies presented, also the Turolla *shhark*® low noise pump was fully revealed at the Exhibition booth.

A cut-through model displaying the special gear sets caught particular interest among the many visitors.

The Turolla *shhark*® low noise pump is now in its final stage before being fully released for running production at our new Factory in San Castel Pietro.

And coming back to previously mentioned documentation on our homepage, latest news and updates regarding the Turolla *shhark*® low noise pump will be announced here first!
