

Welcome to the twelfth edition of the Turolla quarterly Newsletter. Well into the Fall Season we are moving ahead and continuing the path of innovation and refreshing appearance, making a clear difference in the market place. Further you will find highlights of upcoming exhibitions where Turolla will be present, more visible and stronger than ever seen before. Also, you will find additional news related to our organisation, the scaling-up of people support, and latest engineering appetizer from our development department retrievable from our global web site. Finally, as always, your valuable feedback is very much appreciated and welcomed – because your opinion matters!

So, for the next five “reading-minutes” – enjoy!
 Best regards, Ulrik Krag - Manager Partner Companies Europe

New Manager CTS, Europe

In our efforts to continuously improve and support the growth path Turolla is undertaking, we are happy to welcome Andrea Bosi as our new Manager in Commercial and Technical Support Department, Europe.

Andrea has covered different roles during his career, such as Quality Customer Engineer, Design Engineer and Application Engineer.

He holds a Master's degree in Mechanical Engineering from the University of Parma, Italy. His main thesis paper: *“Experimental analysis about gear pump performance due to thrust plate modifications”*.

Andrea will focus on leading and coordinating the Bologna Plant CTS' Team.

Please join me in congratulating Andrea as we look forward to his contributions in the Sales & Marketing team.

Best regards, Massimo Dovesi,
 Global Sales & Marketing Director

News from Turolla Marketing

One of this year's biggest Agritechnical Exhibition Events in Europe, EIMA, will take place in the middle of November in Bologna, Italy – the home of Turolla!

You may already have noticed our advertising on the homepage – both for EIMA as well as Bauma China,

This year's EIMA exhibition will be very special since Turolla, together with Comatrol, will be present with its own and special “**REVOLUTION**” design stand – be prepared to be excited and enlightened!

Along with our new enlarged product portfolio you will find interesting innovative solutions that underline our strong commitment to jump ahead in the market place.

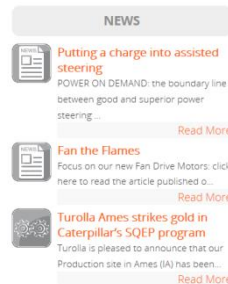

We hope to have provoked your curiosity for technical excitements and welcome you to visit our booth in Hall 18 - Stand B3-B5.

Best regards, Barbara Giatti - Global Marketing & Communication

News on the homepage

As a kind hint we strongly encourage you to frequently consult our homepage for news and relevant topics about technologies and systems being announced:

www.turollaocg.com

Right now there are two interesting articles covering hydraulic steering and fan drive systems from our development department.

The first article "Putting a charge into assisted steering" describes the Turolla' Electro Hydraulic Power Steering Solution (EHPS) and its applications.

The second article “Fan the flames” highlights the new compact range of Turolla' motors for hydraulic fan drive systems suitable when aligning to the TIER 4/Stage IIIB emissions regulations.

Best regards, Ulrik Krag - Manager Partner Companies Europe
